EDUCATION

Tufts University

August 2022 – May 2026

GPA 3.73, BS Computer Science, BS Mathematics, Dean's List (Fall 2022, Spring 2024)

Somerville, MA

Relevant Coursework: Algorithms, Network security, Machine structure, Data structures, Multivariable calculus, Linear algebra SKILLS

Programming Languages: C/C++, Python, x86-64 Assembly, TypeScript, ReactJS, Node.js Tools and Technologies: DevOps, Docker, Django, MongoDB, SQL, Tailwind CSS, Figma

EXPERIENCE

Course Assistant for Machine Structure, Assembly Programming, and Data Structures

May 2023 - Present

Somerville, MA

Tufts University, Department of Computer Science

• Strengthened course infrastructure for 200+ students by improving autograding software, staff software, and assignment solutions

- Contributed 20+ unit tests to autograder by finding edge behavior in students' submissions
- Developed internal software to organize scoring of submissions between course staff
- Graded assignments by studying 60+ submissions for functionality, testing, and course coding standards
- Reinforced course objectives and debugging principles during 1500+ student interactions by explaining lecture topics and assignments in office hours
- Strengthened understanding of course material weekly for a 30+ student lab by delivering comprehensive lectures

Full Stack Developer

September 2023 – May 2024

 $Tufts\ Jumbo\,Code$

Somerville, MA

- Enhanced the information display for the 1,000,000+ annual visitors of the Emerald Necklace Conservancy by designing an full-stack web app with a tight-knit team
- Created a secure page modification system for park administration by maintaining a MongoDB database for information, and an authentication system for editing privileges
- Designed a cohesive user interface for 50+ pages by creating and documenting React components in TypeScript

Receptionist

May 2023 - Present

Tufts University, Office of Academic Space Management

Somerville, MA

Service community via organizing mail, and analyzing building usage for largest academic buildings on Tufts campus.

Visual Communications Intern

May 2021 – August 2021

Texas Heart Institute

Houston, TX

- · Designed graphics and created animations representing cardiological research for publicity
- Interviewed for animation work by the Houston Chronicle

Relevant Projects

Universal Machine | C, x86-64 Assembly, Bash

November – December 2023

- Created a Turing Complete virtual machine supporting I/O, machine arithmetic, logic, and memory tested with custom-devised unit-testing framework.
- Optimized the program by analyzing x86-64 Assembly instructions and qcachegrind and minimized expensive operations such as dereferencing or allocation through reuse of memory.
- Recreated the venerable HP15-C via Assembly instructions derived from the Universal Machine's ISA.

World Clock | JavaScript, HTML, CSS

August 2023

- Constructed a web application showing the time of user-chosen cities, with a helpful, responsive map to aid in visualization.
- Integrated OpenStreetMap and MapBox libraries for graphics. APIs were chosen as they best met the scalability requirements.
- Published application to personal website with custom autocomplete search bar and tracked development with Git

$\mathbf{vfl} \mid C, Python$

October 2023 - February 2024

- Designed a file format that encodes flight itineraries into bitpacked data.
- Wrote a collection of Python modules that aid the compression, like quantizing timezones, or finding the UTC offset of an airport, given its code.

SSH Setup Guide | shell, LATEX

March 2024

- Wrote a concise guide for setting up a secure connection to a server.
- Described how to create public/private key pair to authenticate with server, how to setup a shell alias to quickly login to a server, and how to use key for password-less authentication in an SFTP connection.
- Created GitHub Actions pipeline to compile T_FX → PDF, publish to repository releases and webpage.

$\mathbf{arith} \mid C$

October 2023

- Wrote a JPEG-style compressor/decompressor utilizing a block-wise transformation.
- Broke transformation into separate modules to thoroughly test functionality in each step.

Encrypted IM | Python

January 2024

• Implemented a peer-to-peer encrypted instant messenger using the AES-256 CBC cipher, as a practice in network programming and encryption.

Extracurricular Activities

Spoken Languages: Proficiency in English, Hindi, Spanish, and French

Media: Droneography, Photoshop, Lightroom, After Effects, Davinci Resolve Studio, Premiere Pro, InDesign, Wordpress

Travel: Hiking mountains, traveling to novel destinations, searching for amazing flight deals Standards: Expert in recalling IATA airport codes, ISO country codes, and timezones
